📍 GD Colony Mayur Vihar Phase-3 Delhi 110096

OBJECTIVE

I am a motivated and detail-oriented computer science graduate with strong skills in Java, Spring Boot, REST APIs and frontend technologies like HTML, CSS, JavaScript and React. I am looking for an opportunity to start my career as a Full Stack Developer, where I can apply my technical knowledge, keep learning, and contribute to real-world projects.

EDUCATION HISTORY

- Bachelor of Computer Science and Technology

Starex University, Gurugram, Haryana (2020-2024)

CGPA:8.08

- Java Full Stack Developer Training, Ducat School of AI (2025)

ACHIEVEMENT –

- My team (CYCI) got the first position in the poster presentation of cyber security topic on IBM ICE DAY (3 June 2022). I was also part of that team.
- My team (KRITRIM) got the third position in the poster presentation & panel discussion of AI topic on IBM ICE DAY (17 February 2023). I was also part of that team.

RELEVANT SKILLS

- HTML, CSS, JavaScript, TypeScript, React, Bootstrap, Angular (Familiar)
- Java, Spring Boot, Spring MVC, RESTful APIs
- SQL, MySQL, PostgreSQL

EXPERIENCE

- SOFTWARE DEVELOPER INTERN (PRUTOR.AI) IIT KANPUR OUTREACH CENTER NOIDA 62**

1 Feb 2024 – 1 May 2024 [Certificate Link](#)

In my internship, I worked on the local site, Prutor website as per the company's work, like creating slides using HTML, CSS and making corrections in the Katex code which was not running and also led a team.

- Software Engineer - Intern, Aiwise Labs Pvt. Ltd. (November 2025- Present)**

Worked on live projects, developing front-end code based on Figma designs and implementing SQL queries. Contributed to application updates using Angular. Gained experience with zero-code platforms, utilizing company-specific tools such as Natflow and Chanakya for project development.

PROJECT

- BulBul Blossom an E-Commerce WebSite (Oct 2024) [Github Link](#)**

Associated with Infodart Technologies Ltd.

An E-commerce website that created according to the client's requirement. This website allows user to explore various products manufactured by the client. This project was taken up by my college friend as freelance work during their internship with the company, and I was a contributor to this project in designing and basic HTML and CSS code.

- Loan Lifecycle Management System (Nov-2025 to April-2026) [Live Link](#)**

Associated with Bajaj Housing Finance Limited

Worked on a production-grade loan lifecycle platform, contributing across frontend development, database optimization in a high-impact financial environment. Developed and integrated API-driven features using Angular, ensuring seamless communication between frontend and backend systems.

Played a key role in performance tuning production-level SQL queries.

Actively worked on UAT (User Acceptance Testing) cycles, resolving critical issues to ensure stable production releases.

Implemented multiple system updated and features improvements based on evolving business needs and stakeholder feedback.
